

PRODUCT DATA SHEET

DURATAC POLYMERIC TACTILE INDICATORS with anchor

These Duratac Tactile Indicators with a pressure fit stem are manufactured from high quality UV stable polymer.

Available in 7 colours, these tactile individuals provide architectural appearance, as well as excellent durability and virtually no maintenance. The textured face, raised 4.5mm from the base, greatly improves slip resistance.

These tactiles are designed for installation in public areas for the orientation of people who are visually impaired.
