PRODUCT DATA SHEET

Dry Area Mat

Diamond Plate Sponge

Diamond plate sponge floor mats have a durable vinyl surface which is bonded to a resilient, closed-cell vinyl foam. Together this provides excellent anti-fatigue and wear characteristics. These rubber floor mats are an ideal outdoor floor covering for slippery walkways and paths, and also protect floors and industrial equipment.

- A high quality anti-fatigue mat, ideal for dry areas.
- Durable PVC surface – bonded to a resilient anti-fatigue closed cell vinyl foam base.
- The diamond pattern provides an abrasive and slip resistant surface.
- Provides relief for leg, back and ankle discomfort while standing for long periods of time.
- Anti-trip bevelled edges on all sides.

Code	Size & Thickness
